Projects

Juniors in Tech | juniorsintech.com
- A weekly newsletter for juniors in the tech industry. Includes job listings, articles, and resources

Lingoly
- A speech-to-text speech writing app for language learners
- Implemented speech recognition with the Web Speech API, grammar correction with the LanguageTool.org API, rendered views with React, and managed state with Redux
- Technologies: Web Speech API, React, Redux, Express, PostgreSQL, CSS animations

Spacechat
- A virtual reality chat room with language translation and sentiment analysis features
- Created VR scenes with animations that respond to speech, implemented Redux store, integrated sentiment analysis and speech APIs, and coordinated real-time data transfer with Socket.io
- Technologies: React, A-Frame, WebGL, Web Speech API, Google Translate API, SocketIO, Indico

Intro to Animations in React | Tech Talk
- An intro to using animations with React components
- Demonstrated use of CSS, TweenMax, and higher order React components to produce animations

Education

Fullstack Academy - Grace Hopper Program   **New York, NY | Feb '17 - May '17**
- 3 month intensive software engineering bootcamp with an acceptance rate of less than 8%

Florida State University   **Tallahassee, FL | Aug '08 - Apr '12**
- BS in Sociology, BA in French and Spanish
